

SEN-1102WL

Water Leak Detector

Package Content

1. SEN-1102WL

Features

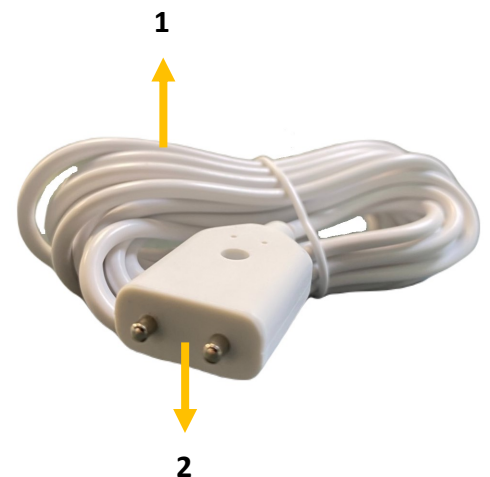

- ◆ Compatible with any gateway with Digital Input
- ◆ The most cost effective solution to detect water leaking
- ◆ Multiple application fields, such as sinks, aquariums, refrigerators, dishwashers or toilets
- ◆ Detection pole is made of Stainless steel to prevent rusted

SPECIFICATION & I/O INTERFACE

Sensor	Wired type water sensor
Resistor Inside	20K ~ 20M Ω
Output	NO (Normal Open)

Others

Power Supply	None
Operating Temperature	-10°C to 65°C (14°F to 149°F)
Storage Temperature	-20°C to 75°C (-4°F to 157°F)
Material	ABS Plastic
Fixedness	N/A
Dimension	30*20*8mm (HxWxD)
Length	1M

- 1) Wired conduction**
Connect to the gateway with DI
- 2) Detection Pole**
Put on the floor to detect flooding
