PS-1201AC

AC Power Switch

Package Content

1. PS-1201AC

Features

◆ Support wide AC voltage range 90 ~ 235V

◆ Built-in high level fuse for fire protection

◆ Able to work with Controller for further integration

◆ Support the current up to 10A

◆ Support setting recovery mode to avoid any unexpected power lost

◆ Support RF Remote control (optional)

◆ Also can be used in lighting control

SPECIFICATION & I/O INTERFACE

RS-485	1 x 2pins-phoenix terminal block For RS-485 only
AC Power I/O	90 ~ 235V
LED light	Power Indication

Others

Power Supply	AC 90~235V
Power Consumption	3W
Operation Temp.	-20°C to 75°C (4°F to 167°F)
Storage Temp.	-40°C to 85°C (-40°F to 185°F)
Fixedness	Mounting ear with screws
Dimension	92x 49x 34mm

1) RS-485
Connect to device with 485

2) AC Input
Connect to AC input

3) AC Input / AC Output
Connect to AC input & output

4) AC Output
Connect to AC output
